Water

Water

Water for the flowers

Water for the tree

Water for the bird

Water for the bee

Water for the rivers and water for the sea

Water for the world

And water for ME!

Water comes from the clouds, when it rains.

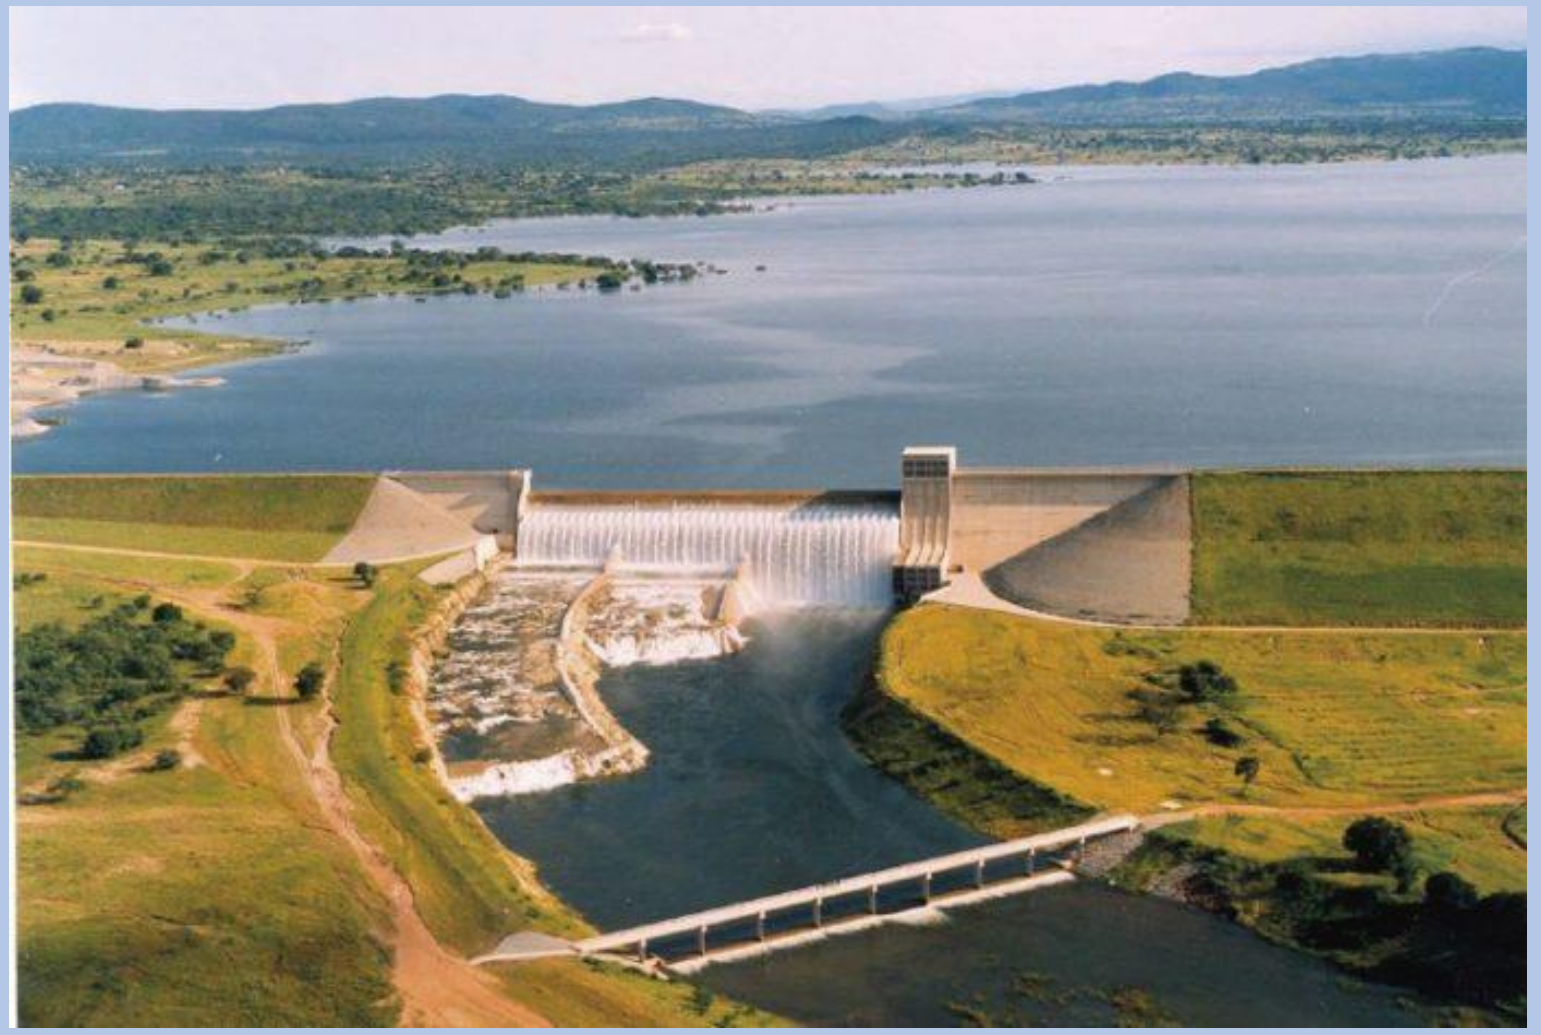
Where do we find water?

We find water in...

the sea

rivers

dams

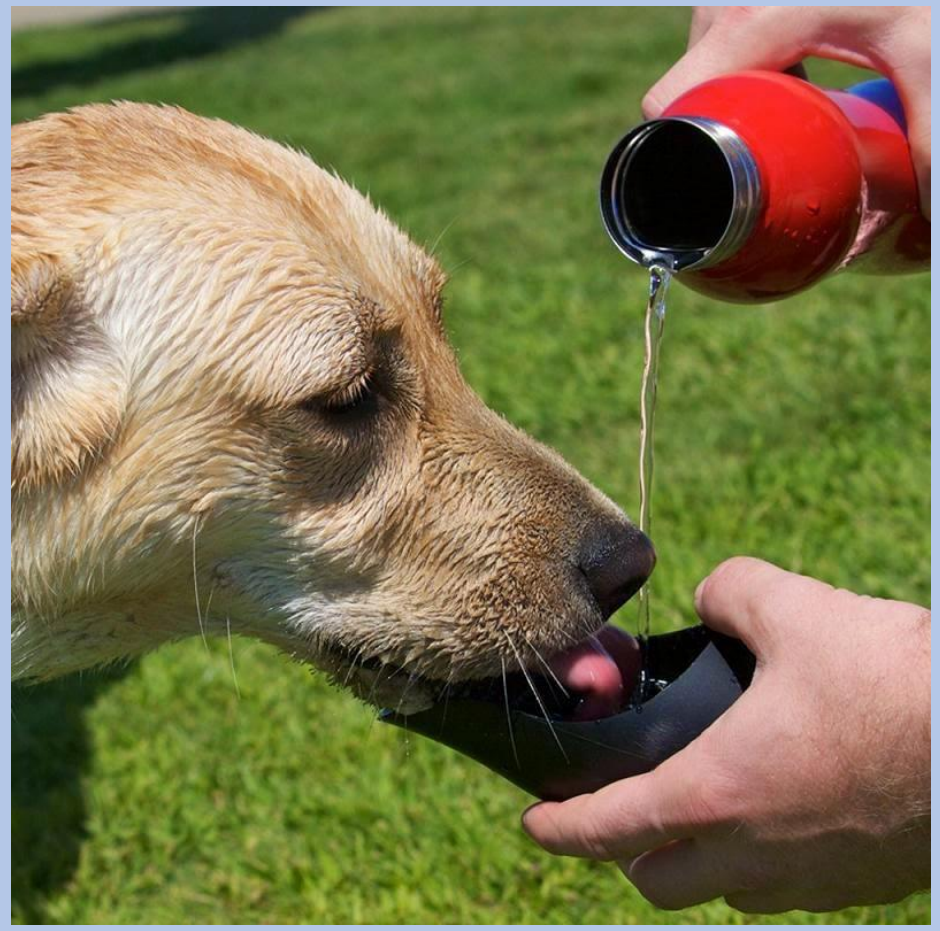


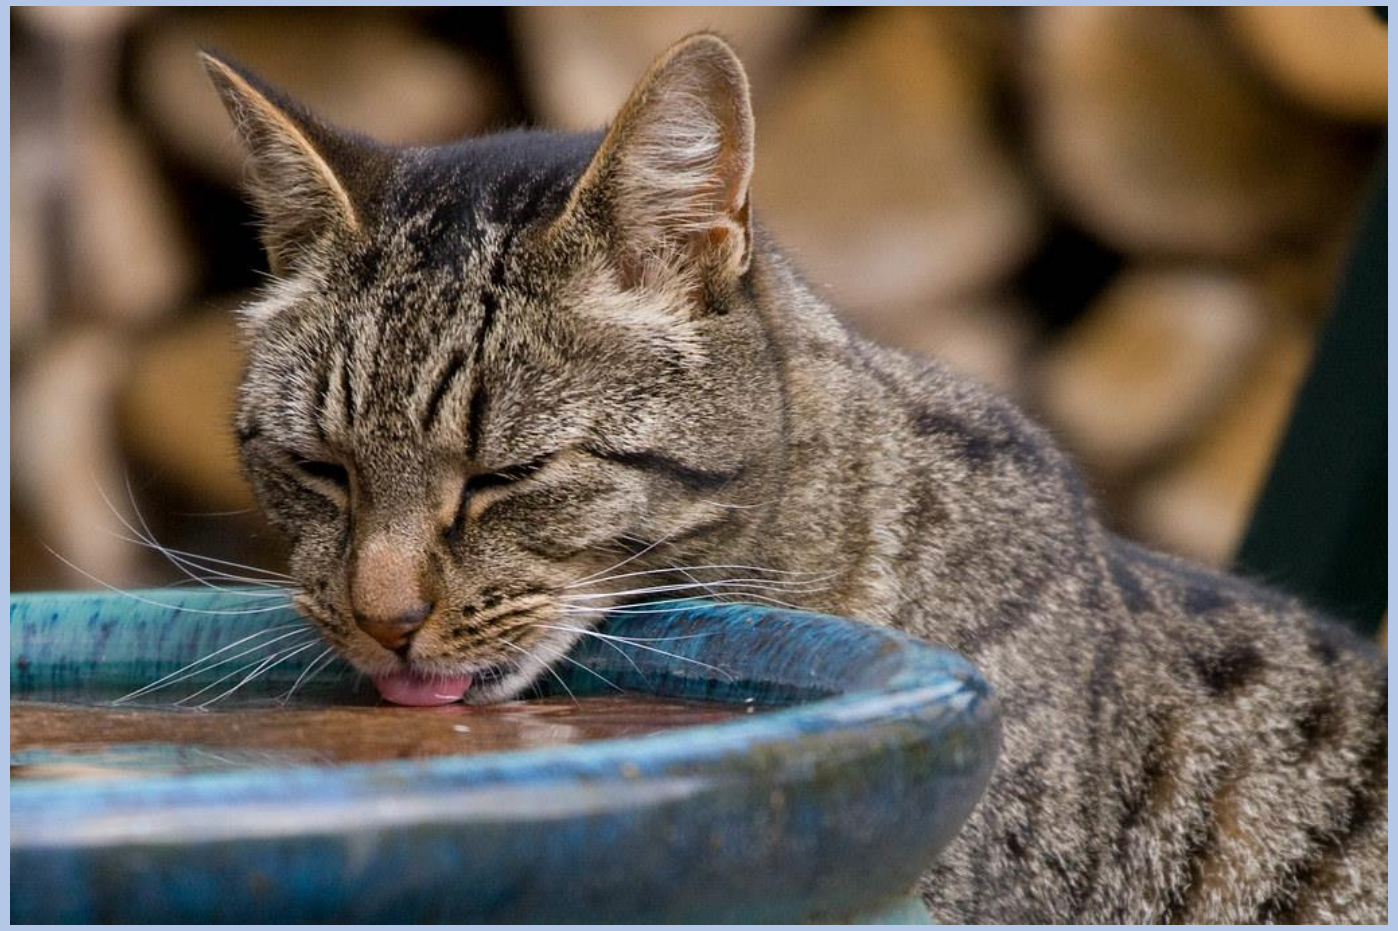
What do we use water for?

We drink water.

We water the plants.

We give water to our pets.





We swim in a swimming pool.

We get our water from the Theewaterskloof dam.

We should not waste water.
