Write and present

Design a poster

Design a **poster** to tell people about something special that is going to happen. For example, a cake sale, a sports day or a celebration of a public holiday or event like Arbor Day. Use the flow chart to help you.

1. Plan:
   - What words will you use?
   - What colours will you use?
   - What pictures will you use?

2. Organise:
   Use rough paper and a pencil to plan where you will place the information.

3. Look:
   - Put up your poster about ten steps away from you and look at it with a partner.
   - Think of changes that can make it better.

4. Make the changes. Also check your spelling and punctuation.

5. Make your neat poster. Work in pencil on clean paper. Once you have placed your information, use colour to make it bright and interesting.

Checklist: Design a poster

1. Keep the words short.
2. Use different sizes of letters.
3. Use bright colours.
