

While you read

Think about the ingredients you need to make the paste.
Did you guess correctly?

Word list

baking soda – an ingredient that is used for treating bites and sores

You will need

Water

Soap

A cloth

A small cup and a teaspoon

Baking soda

Follow these steps

1. Clean the bites with soap and water.
2. Put two teaspoons of baking soda in a cup.
3. Add one teaspoon of water.
4. Mix them together to make a thick paste.
5. Rub the paste into the bites.
6. Leave it on for two hours.
7. Wash it off with soap and water.

After you read

Answer the following questions.

1. What do you use to clean the bites?
2. How do you make the paste?
3. What do you do with the paste?

Vocabulary in context *Textbook*

Read the words in the boxes on the left. Match the words in the first column with a word in the second column that means the opposite. The first one has been done for you.

clean	worse
small	dirty
often	thin
better	subtract
add	never
thick	big

Work with words and sentences *Orally*

Look at the sentences under the heading **Follow these steps**.

1. The first sentence starts with the verb **clean**. Find the verbs in the other sentences.
2. Write a list of the verbs.
