

sketstegnieke

Hallo liewe kunstenaars!

Ek glo dit gaan goed met elkeen van julle.

Hierdie week kyk ons na 'n onderwerp waaroor julle gereeld vrae het in die kunsklas. Ons hou daarvan om figure (mense) te teken, maar dikwels sukkel ons daarmee.

Wil jy weet wat die groot geheim is?

In die volgende skyfies is prente van dele van 'n mens se liggaam waarna jy kan kyk en dan kan jy oefen om dit te teken. Jy kan enige figuur in enige posisie teken deur na hierdie voorbeelde te kyk.

Ek sien baie van julle het sketsboekies wat julle gebruik om sketse in te oefen, wat 'n goeie idee!

As jy wil en kan, kan jy selfs die volgende skyfies uitdruk en dit in jou boekie plak.

Gesigte

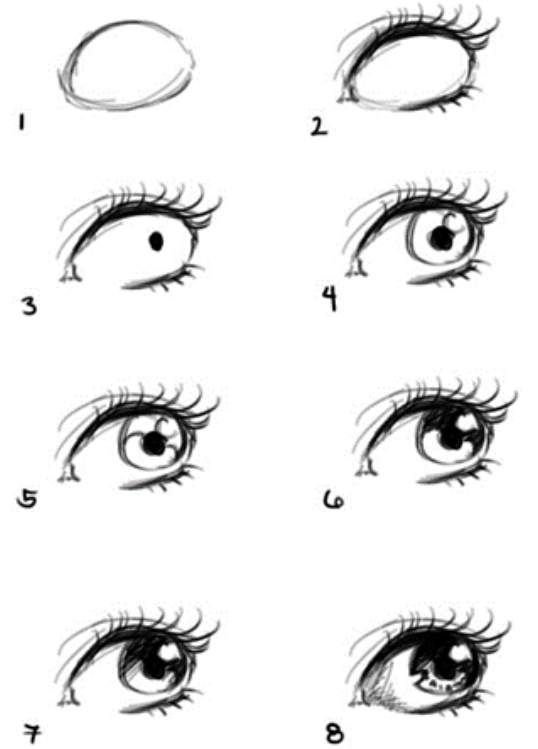

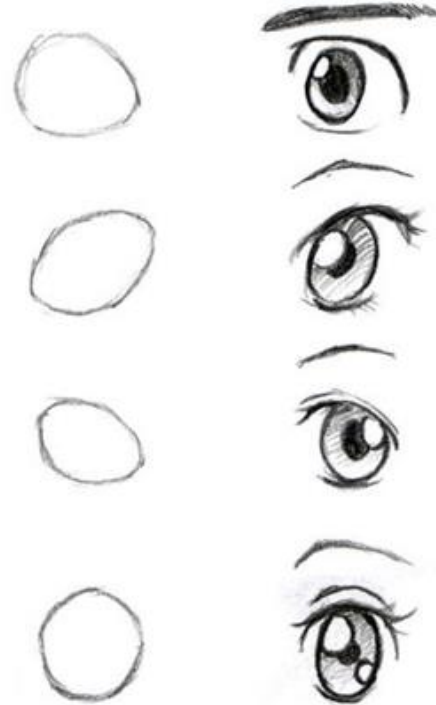

Oë

RECTANGULAR

ROUND / OVAL

Neus

Mond

Hande

Voete

Onthou dat die beste voorbeeld om na te kyk
wanneer jy teken is die regte voorbeeld. As jy
iemand by die huis het wat vir jou in die
posisie kan staan wat jy wil teken sal dit altyd
die beste wees.

Lekker oefen, oefen, oefen!
