## Key features of a novelette

### What you know already

Just as a short story or a novel has a plot or story line where the main events in the story unfold, so does a novelette. A novelette also has:

- characters or the people who take part in the action
- characterisation, where the reader learns about the different characters and personality traits of the characters
- conflict, where there is some disagreement between characters or a problem arising out of their situation
- a background where we can learn about the characters' history
- a setting or the place where the story takes place
- a narrator or the person who tells the story
- the theme or the message/main idea of the story.
