Kwartaal 2 Week 4

Laerskool Mikro Kopiereg ©

LAERSKOOL MIKRO

Dag 4

1 2 3 4 5

Laerskool Mikro Kopiereg ©

Dae van die week

LAERSKOOL MIKRO

1. Maandag
2. Dinsdag
3. Woensdag
4. Donderdag
5. Vrydag
6. Saterdag
7. Sondag

Mamma vra die vrae:

1. Noem die dae van die week?
2. Hoeveel dae is daar in 'n week?
3. Watter dag kom voor Sondag?

Dae van die week

LAERSKOOL MIKRO

1. Maandag
2. Dinsdag
3. Woensdag — Gister
4. Donderdag — Vandag
5. Vrydag — Môre
6. Saterdag
7. Sondag

Mamma vra:

1. As gister Woensdag was, watter dag is dit vandag?
2. Watter dag sal dit môre wees?

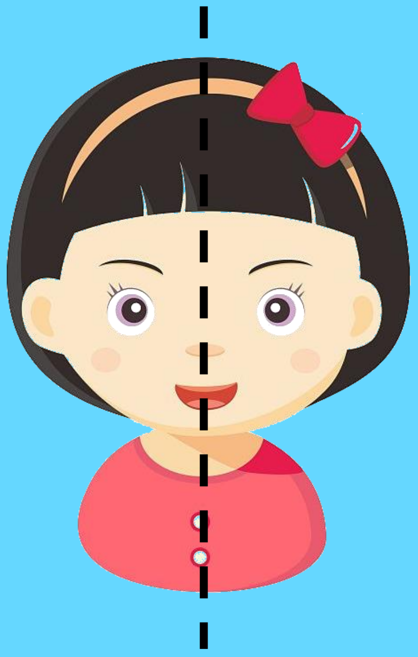
Simmetrie

As jy 'n lyn in die middel van jou lyfie sou trek en jy kyk in die spieël, sal jy sien dat die twee kante weerskante van die lyn presies dieselfde lyk.



Albei kante het: 1 oog en 1 wenkbrou
'n halwe neus
'n halwe mond en
1 oor

Laerskool Mikro Kopiereg ©

As ons sê iets is simmetries beteken dit dat die een kant van ‘n prentjie presies dieselfde as die ander kant lyk.

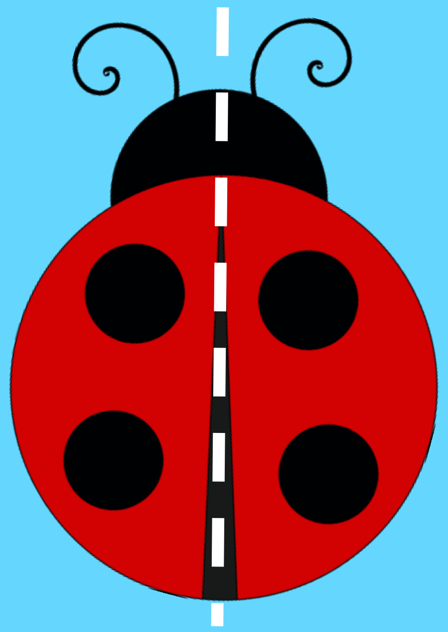
Elke dingetjie aan die een kant is op dieselfde plek en dieselfde kleur as aan die ander kant.

Dit is asof jy in ‘n spieël kyk.

Laerskool Mikro Kopiereg ©

Verduidelik nou in jou eie woorde vir mamma wat jy dink simmetrie is.

Sal jy sê die twee helftes van die prentjie is dieselfde (simmetries)?



Laerskool Mikro Kopiereg ©

Soek nou die prentjie se ander helfte:

Laerskool Mikro Kopiereg ©

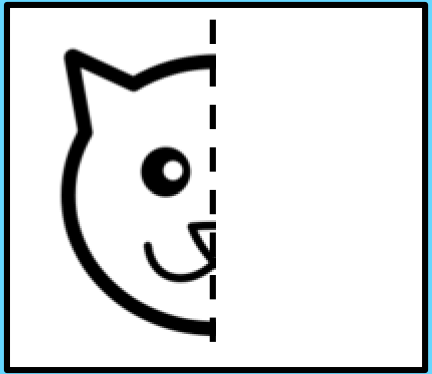
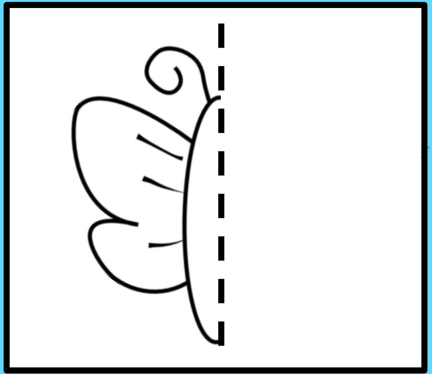
Vra nou vir mamma om vir jou nog drie prentjies op papier te teken en voltooi dan die ander helfte van mamma se prentjies.





Goeie werk!
